Dear Sir,

Feedback for the Database

Hello Mr. Senith, I'm very pleased with the Database. If it wasn't for your hard work and dedication for this system, none of this would have happened. The Database looks very professional. I would also like to thank you for giving me the Database to test it fully. This gave me the opportunity to look closely and check every aspect of the Database. I checked all the form, navigation buttons, viewed and printed off reports, printed receipts which works fine and all the other buttons related to the forms. I know you used VBA code for the process of this system and it is mind blowing how a simple code can make a big change. It's absolutely incredible. Anyway the forms look really nice and clean, it's pleasing to look at. Oh! one thing I want to appoint out is that editing a Detail is very easy, by setting the hyperlinks you really made work easier for my employees. Well that's all I can say, I love every aspect about the Database.

Once again thank you Mr. Senith. I really appreciate what you have done.
Thank You.

Yours sincerely,

.....
Mr. Rahul Anthonis.
